Education

SRM Institute of Science and Technology

B.Tech in Computer Science and Engineering

Aug 2023 – May 2027

CGPA: 8.23 / 10

INTI International University

Semester Abroad Program

Aug 2025 – Dec 2025

CGPA: 3.19 / 4

Work Experience

Salesforce Intern

May 2025 – Jul 2025

- Worked on Salesforce platform tools and workflows.
- Assisted in implementing CRM solutions and automation features.
- Collaborated with the development team to improve system efficiency.

Projects

IPLytics — AI-Powered IPL Analytics Platform

- Developed an AI-powered analytics platform focused on IPL player, team, and venue performance analysis.
- Developed natural-language querying and interactive dashboards using Python, Pandas, Plotly, and Streamlit.
- Leveraging PostgreSQL and Gemini API to generate insights from historical IPL statistics and match data.

Progresso — Full-Stack Project Management Platform

- Developed a Kanban-style project management platform with team collaboration, role-based access control, and task tracking.
- Built a React + FastAPI architecture with JWT authentication, drag-and-drop workflows, and activity logging.
- Designed REST APIs and database models using SQLAlchemy and SQLite for boards, tasks, teams.

EverClinic — Clinic Management System

- Developed an Android application to streamline patient appointment scheduling and clinic operations.
- Implemented doctor assignment based on specialization and availability.
- Designed secure storage and management of patient medical records using Kotlin and Android Studio.

Skills

Languages: Python, SQL, Kotlin

Frameworks & Libraries: Pandas, Numpy, Streamlit, Plotly, MongoDB

Tools: Git, GitHub, Android Studio, VS Code, Figma, Canva, MS Office

Certifications

Google Cybersecurity Professional Certificate

- Completed the 8-course professional certification offered by Google on Coursera.

Cricket Analytics Workshop

- Completed a 5-day workshop on applying data analytics to cricket performance and match trends.

CCNA: Introduction to Networks (Cisco Networking Academy)

- Gained practical knowledge in network architectures, models, IP addressing, and Ethernet concepts.

MongoDB Associate Developer Learning Path

- Gained hands-on knowledge of MongoDB, including CRUD operations, schema design, indexing, aggregation pipelines, and database optimization for modern applications.
